Jan - June

US4WOMEN

THIS IS EMPOWERMENT

Empowering Women living in the slum communities to rise above poverty in Uganda.

50
WOMEN

It has been an awesome journey from January to June. We are currently working with 50 women from the slums of Kosovo through our Us4Women Program. Women are equipped with tools, skills, resources and knowledge to become self reliant

Work provides worth, it is about investing in the whole person. Education breeds innovation, mentorship nourishes relations, we have seen women collaborate with each other to start small businesses, design beautiful African jewelry products, like bangles, necklaces, headbands, earrings, door mats and recently we had an exhibition where they showcased different activities that they have been making, we invited friends and well wishers to come check them out, they were astonished by the marvelous work that the women produced.

Our mission is to Equip instead of giving them handouts.

100

PRODUCTS SOLD

Women sold up to 100 products on our Us4Women open market, and the money they got went directly back into their families,

Through this kind of empowerment women are able to take care of their families, feed and educate their children and they meet the present needs of their families.

We are continuing to innovate new products women can make and we are dreaming of starting an online shop where people all over the world can buy products and help support the work we are doing in the lives of vulnerable women in the slums of Kosovo & Katanga.

US4WOMEN

WORKING TO MAKE LIFE BETTER FOR WOMEN IN UGANDA

Thank you once again for helping and supporting us with our venture where we are making a change in the lives of these women.
