# Gearing Up for Training

During 2017, Arise Uganda conducted 3 training sessions focused on web design. We believe that “Skills Create Opportunity” and the Creation Hive provides an excellent opportunity for individuals to learn.

Technology skills are always useful. While they may not be core to a specific job or career, they are useful in almost every type of business these days.

The first official course offered by the Creation Hive will be an Introduction to Computers. We

## Introduction to Computers

### **Day 1**

Computer Hardware  
Operating Systems  
& Software

### **Day 2**

Windows 10 Installation

### **Day 3**

Windows 10 Operation

### **Day 4**

Installing Microsoft Office  
Managing Computer Files

### **Day 5**

Word Processing  
with Microsoft Word

### **Day 6**

Spreadsheets  
with Microsoft Excel

expect this course will be valuable to many youth and will be well received by our community. This intro will also provide a good springboard for some learners to advance to Web Design.

In addition to these technology courses, the Creation Hive anticipates adding one or more entrepreneurial business courses during 2018.

## **Learning for Life:**

*“If learning is an act of exploration, then technology equips the explorer for the journey of a lifetime..”*

Uganda is on the frontline of an African

# REFUGEE CRISIS

1,037,898 from South Sudan; 242,406 from the DRC; plus more than 90,000 from other neighbouring countries.

# FUN, FOOD & COMMUNITY

We are about to host our third Fusion event within our community. Fusion brings young people together to play games, share a meal, and to discuss issues affecting their lives. At present, we are considering effective communication and how it can help in our relationships. The first Fusion hosted about 12 people and that number doubled in January.

There are not many private green spaces in our neighbourhood. Most of Kosovo is dirt and highly populated. Our yard however has a large green grassy area where youth can play football or sit and talk. At Fusion there is lots of time for community to be built, mama Terry serves a good meal for everyone to share, and we add some meaningful and relevant discussion. Community and lasting relationships are fostered in just this way.

While most of the young people participating in Fusion are already friends and may go to the same church, this is a fun event that lets them step away from work, school, service and other commitments to do community.
